Northern Michigan Angels Group Seeking Entrepreneurs and Local Investors

TRAVERSE CITY – Northern Michigan Angels (NMA) is currently seeking regional, scalable entrepreneurial companies looking for funding along with applicants for NMA membership for the balance of 2018.

NMA is an organization of local volunteer members focused on private sector economic development. The group's primary interest is working with scalable entrepreneurial companies whose potential success will have an impact on the economic prosperity and quality of life in Michigan, especially in northwestern lower Michigan.

NMA is comprised of private individuals, mostly high net worth, usually with business experience, who directly invest part of their personal assets in new startup businesses with

growth potential and a sound business plan. Angels not only contribute cash, they often have industry knowledge and contacts that they pass on to entrepreneurs. Angels will often take non-executive board positions in the companies in which they invest. NMA fills the gap between entrepreneurs and traditional lending institutions that may not take on the risk of lending money for start-up companies.

The Northern Michigan Angels office is located at 161 East Front Street, Suite 210, Traverse City. If you would like to learn more about membership opportunities or explore entrepreneurial funding, visit northernmichiganangels.com or call (231) 932-1280. Northern Michigan Angels is a member of the Angel Capital Association.
